

# DANISH BIOIMAGING NETWORK NEWSLETTER

## NETWORK NEWS

**Mark your calendars!**

**The physical Danish  
BioImaging Meeting  
will be on May 19-20, 2021**

**Stay tuned for more  
information**

Dear members.

The final newsletter of 2020 has arrived. Due to COVID-19 this has been a very strange year with many restrictions and changes. In spite of it all, we have maintained some of the core Danish BioImaging Network activities such as the Cross-institutional DBI PhD course and a virtual version of the Danish BioImaging Meeting. With a bit of luck 2021 will allow us to have a lot more networking activities and hopefully even see each other in person.

On behalf of the DBI Management Committee, we wish you all the best. Merry Christmas and Happy New Year!

/DBI Network Coordinator Rebecca Engberg, reen(at)dtu.dk

## December 2020 Highlight

### **Danish BioImaging Meeting 2020 videos**

Thank you for your participation in the Danish BioImaging Meeting. Despite the partial lockdown, we had a successful virtual day on November 11 with many interesting talks covering the breadth of Danish Bioimaging as well as a well-visited online workshop.

In case you missed it or would like to revisit the event, you can find some of the talk presentations as [video recordings](#).

In the afternoon, the [QIM Center](#) hosted a virtual workshop on Machine Learning for Image Segmentation. If you would like to rewatch some parts of the workshop again, you can find the Zoom recording at the [QIM channel](#).

### **What is the status of Bioimage Analysis? Check out the NEUBIAS survey**

NEUBIAS is assessing the present status of bioimage analysis in the Life Science community. The results will be a highly valuable resource for knowing what is there and what is missing, and the findings may potentially be used for a review publication and grant writing to support the bioimage analysis research and communities. If you have time, please take a couple of minutes to answer the 9 questions in the survey "Assessment of Image Analysis Needs in Life Science", <https://bit.ly/ImageAnalysisNeeds2020>. The survey closes 24.12.2020, 24:00 (CET).

### **OPEN CALLS AND POSITIONS**

- [Application Specialist in Advanced Light Microscopy](#) at EMBL Imaging Centre, Germany, deadline December 31
- [Two postdoc positions in studies of protein trafficking and cellular adhesion](#) at Aarhus University, The Department of Clinical Medicine, deadline January 3.
- [Postdoc Researcher in the Biophysical Imaging department](#) at the Leibniz Institute of Photonic Technology, Germany, deadline January 20
- **#LOCAL [DBI Open Call 2020](#)** to promote interactions between network members, for example for courses, meeting and seminars. Applications are welcome for 3.000 – 10.000 DKK.

### **COURSES**

- **#LOCAL [Biophotonics PhD Course at DaMBIC](#)**, January 18 – January 22, DaMBIC, University of Southern Denmark

### **CONFERENCES AND WORKSHOPS**

- **#LOCAL [Danish BioImaging Meeting](#) 2021**, May 19-20, physical meeting at DTU, Lyngby.

*Happy Holidays*
